

**AC 314 Tableau Project – The 360****Due date: 2pm, 3/14/2025****Total Points Possible: 65 points****Objective**

This project is the Ernst and Young Foundation. It is to help you practice your Tableau and writing skills.

**Instructions**

1. This project should be completed in groups of three. You can work with anyone of your choice. Please put the names of your group on this spreadsheet.  
[https://docs.google.com/spreadsheets/d/1p2xmGjiCtkG8U30hKsrOYQHYwIAhwFXFW3rr\\_CYlgRM/edit?gid=0#gid=0](https://docs.google.com/spreadsheets/d/1p2xmGjiCtkG8U30hKsrOYQHYwIAhwFXFW3rr_CYlgRM/edit?gid=0#gid=0)
2. Each group will be submitting 1 PDF file and 1 Tableau (.twbx) file.
3. Name the files appropriately.
4. All submissions need to be done via Courses.
5. Format: Times New Roman, font size – 12, single space.
6. You are allowed to use generative AI to provide points in your written response. You are not allowed to use generative AI to write the response for you.
7. If you choose to bring in outside sources for your work, please cite appropriately. This applies to the use of generative AI as well. Recall that if you choose to use generative AI, you need to include a detailed description on what you used it for, what were the prompts, and the provided response.
8. I will not be answering any questions related to the project over email. Note that there will be no email checks for the project. Any comments are better delivered during office hours or appointments.
9. Each group is allowed an appointment for this project outside of office hours. The appointments will be 30 minutes per group from 2/25 - 2/28, 3/11 - 3/12. I will not be checking grammar or formatting. Our meeting will be focused on your main points for the written response and the visuals.
10. How to schedule a meeting with me? Send me a list of dates and times that you are available for a meeting, and I will respond with a meeting time. I teach T/F 10am-3.30pm and am not available during office hours for these meetings. All meetings will be done in my office. *Please do not ask me to send you my availability, it changes very quickly and this process is more efficient - 1 email from the group, 1 email from me, and we have a meeting time.* Please give me options as my availability may be limited.
11. **You cannot work with others and/or discuss the project with other students outside of your group.** You may discuss your work with me (not the Teaching Assistants, unless there is prior approval from me to do so). See the Academic Honesty section for further information regarding using the work of other students and providing your work to other students.
12. If a student is not contributing his/her weight to the project, you can let me know. That student will receive a 0 if it is confirmed that the student is not doing the work *and* the student's participation grade for the course will be reduced. Barring issues like this, all students will get the same grade.
13. Failure to comply with all instructions will result in loss of project points.

**Requirements**

The instructions for the project are available on the PDF document titled “Analytics Mindset The 360 Student Instructions”.
